

What is
Cancer?

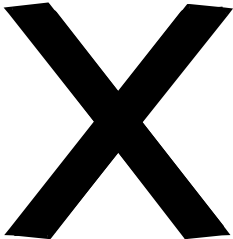

What is
Cancer?

Cancer is a disease of
the body's cells.

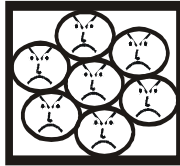

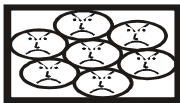

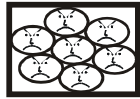

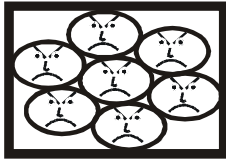

Your doctor will tell you
what the best
treatment is for you.

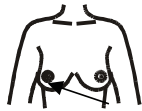

You have the right to
refuse treatment.

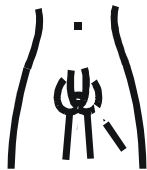

What is
Cancer?

There are many
different
types
of cancer

In your breasts

In your balls

In your stomach

You can get
cancer in
different
parts of your
body
These are
just a few

Radiotherapy
